

OPTIMUM LIGHTPATH WEB CONFERENCE

WEB CONFERENCING FOR YOUR BUSINESS

COLLABORATION, ANYTIME, ANYWHERE

With Optimum Lightpath Web Conference service, businesses will realize increases in productivity by providing their employees with the tools they need to collaborate in real time with customers, partners, co-workers, and suppliers anywhere in the world.

SAVE TIME AND IMPROVE PRODUCTIVITY

Web Conference can help you save travel time and expenses, improve productivity, and allow you to do more work in less time. If you have a telephone and an Internet connection, you can hold an online meeting from anywhere – right from your desktop, right now.

BENEFITS OF OPTIMUM LIGHTPATH WEB CONFERENCE

- **Better interaction-** Live web conferencing can jump-start a project and quickly get everyone on the same page. You'll know who's in the meeting and who's talking.
- **Easy to use-** Host meetings online using the same URL while taking advantage of the simple, intuitive meeting controls.
- **Simple for participants-** By meeting on the web, participants can control their own audio volumes. You can also dial out to meeting attendees to connect them into the web conference, helping to start on time.

FEATURES

- **Personal Meeting Room**- Customize your meeting URL by creating a room name, and conducting all of your meetings from this single, on-demand meeting room.
- **Video Integration**- Use a webcam to share live video with participants from the meeting interface.
- **Share Presentations**- Upload and share PowerPoint right from your computer to audiences around the world.
- **Application Sharing**- Demonstrate and share any software or application from your desktop to remote audiences- it's firewall friendly.
- **Integrated Audio**- For large meetings, mute background noises by the integrated audio features and utilize the active speaker icons to see who is talking.
- **Recording** -Capture both the call and the web meeting in one file, so that others may view the recording later in just one click.
- **Collaboration** -Create a truly interactive meeting with chat, Q&A, web tour, polling, and virtual whiteboard features.
- **Participant Controls**- Receive participant feedback as attendees set their status/mood, or the raise hand feature.
- **File Transfer**- Make supplementary handouts, images or spreadsheets available for download before, during or after a conference.
- **Live Help**- Live customer support and technical advice at the push of a button- during live conferences or any time you're logged in.
